SUMMARY

Senior Product Designer with 8+ years of experience designing and scaling SaaS products across GovTech, clean energy, e-commerce, and ad-tech. Expert in end-to-end UX, design systems, and accessibility, with a track record of delivering measurable improvements through research-driven, cross-functional product design.

EXPERIENCE

Alpha Omega Integration, Remote — *Senior Product Designer*

August 2024 - PRESENT

- Lead product design for a complex case-management platform supporting USCIS and DHS, improving officer efficiency by 18%. Resulting in faster case processing times and less errors.
- 55 hours of time regained per week per case after launch of new form application. Huge boost to user job satisfaction, and a big increase in work being done on the platform as opposed to offline.
- Conduct user research, usability testing, and workflow mapping to streamline complex operational processes.
- Leverage AI for research synthesis, wireframing, and content operations. Run AI design workshops for a group of designers and content writers aimed at nurturing an atmosphere of innovation.
- Design high-fidelity UI and prototypes in Figma aligned with USWDS and Section 508 accessibility standards. Contribute and manage design systems.
- Drove consensus and negotiated scope across technical, product, and federal stakeholder groups to ensure on-time, compliant feature delivery, within agile cycles.
- Lead the strategy and development of a design documentation platform utilized across 9 different domains on the contract to standardize reference materials and processes.
- Run workshops for junior designers and facilitate larger conversations within the design community at Alpha Omega to grow skills and career development.

GridX, Remote — *Lead Experience Designer*

November 2022 - August 2024

- Directed UX strategy for SaaS products supporting clean energy adoption and customer enrollment.
- Defined the multi-year platform vision and UX roadmap that guided the consolidation of multiple product offerings, enabling increased cross-selling and revenue growth.
- Led corporate website redesign and product improvements, increasing lead generation, engagement, and conversions by 50%. Bringing in new business and sales prospects.
- Established guidelines for inter-application transactions, visual presentations, and created mascot and brand voice. Giving the sales and marketing function new ways to grow the business.
- Contributed to a component-based design system in Figma + Storybook.
- Defined and evolved visual brand language across all platforms, ensuring cohesion between product UI, marketing materials, and public-facing assets.
- Used AI to generate marketing content, images and mockups, and workshop creation.

Taylor Guitars, San Diego CA — *UX Designer*

November 2020 - November 2022

- Designed e-commerce experiences driving 50% increase in revenue/session, 105% growth in page views, and 150% increase in time on page.
- Partnered with researchers, marketing, and engineering to optimize user flows and conversions. Utilized quantitative and qualitative research methods to impact the customer journey down the purchase funnel.
- Supported end-to-end UX across discovery, product pages, checkout, and post purchase journeys.
- Supported end-to-end e-commerce experience design, from landing pages and product detail pages to checkout, post-purchase, and registration flows.
- Including A/B testing different components and flows to maximize conversions and enhance the experience for users.

Digital Remedy, Remote — *Creative Director*

January 2017 - June 2020

- Led design and launch of ad-tech platforms driving adoption and boosting revenue by 10%+.

- Managed and co-managed a cross-functional team of 2 designers and 3 marketers across product and go-to-market initiatives.
- Developed pitch decks, branding systems, and optimized web experiences.
- Led full multi-brand rebranding and defined and enforced global brand standards across all channels, ensuring consistent visual identity, tone, and user experience across product, marketing, and client touchpoints.

CPXi, Remote — Lead Designer

November 2013 - January 2017

- Designed responsive UI, marketing assets, and HTML5 interactive ad experiences.
- Managed client relationships and delivered creative solutions tied to KPIs.

Early Career — Creative Roles

2010 - 2013

- Design intern for Extreme Geek and Edmunds Scientific Magazines.
- Marketing Director SBI at University at Buffalo.
- Wallsoup Creative Services web developer and graphic designer.
